This training features the experience and expertise of Mr. Johnson, M.A., L.P. and is appropriate for law enforcement, judges, prosecutors, probation officers, forensic psychologists and therapists. Participants will develop a more thorough understanding of the sexual offender *and* physical abuser. Discussion will include examining the offender's personality traits and behavior, offender typologies, interview strategies, special populations such as the psychopath and sadistic offender, and the role of pornography in any type of violent behavior. Online sexual predators and child pornography users will also be addressed.

The newly acquired understanding and skills will help improve clinical and forensic assessment, interrogation, crime investigation, supervision, treatment, and risk assessment. Mr. Johnson's textbook *Physical Abusers and Sexual Offenders: Forensic and Clinical Strategies* (2007, CRC/Taylor & Francis) offers the most complete work on the physical abuser and sexual offender.
